Q1

What is your name and jurisdiction?

Vicky Earhart, Anderson Township

Q2

Have you or your team attended any AI webinars, training sessions, or courses in the past 3 years?

Yes

Q3

If you answered "No," what are the top topics you would most like to see addressed in your first local government specific AI training?

Respondent skipped this question

Q4

If you answered "Yes," what were the gaps in the training you received that still felt afterward? (Examples: understanding how to apply AI to my role, creating policy, navigating risk, choosing tools, leadership alignment, etc.)

nderstanding how to apply AI to Township functions, creating policy, navigating risk, choosing tools

Q5

If you have not attended a training on AI, what topics would interest you enough that you would want to sign up?

Respondent skipped this question

Q6

Would it be valuable to you to attend a series of trainings to confidently apply AI to local government work?

Yes - I believe AI is the future and want to invest in learning

Q7

If CLG were to offer a 3-part series covering fundamental AI skills, it would likely cost between $400 and $500 per person (for all 3 sessions combined). Is this a cost that you would find appropriate?

Yes

Q8　　　　　　　　　　　　　　　　　　　**Over 3 months (once every month)**

What timeframe would you want to complete a 3-part series? (a series would mean multiple sessions)

Q9

If you were only attending a single 2.5-hour session, would you find a cost between $150 and $250 per person appropriate?

Yes

Q10

What professional positions (e.g. City Manager, etc.) .) would your organization most likely send to these trainings?

Township Administrator, Assistant Township Administrator, Office Manager

Q1

What is your name and jurisdiction?

Eric Meister - City of Mason

Q2　　　　　　　　　　　　　　　　　　　**Yes**

Have you or your team attended any AI webinars, training sessions, or courses in the past 3 years?

Q3   **Respondent skipped this question**

If you answered "No," what are the top topics you would
most like to see addressed in your first local government
specific AI training?

Q4

If you answered "Yes," what were the gaps in the training you received that still felt afterward? (Examples: understanding
how to apply AI to my role, creating policy, navigating risk, choosing tools, leadership alignment, etc.)

ways to use AI effectively for government operations

Q5

If you have not attended a training on AI, what topics would interest you enough that you would want to sign up?

risks/pitfalls, ways to automate tasks, efficiency

Q6   **Yes - I believe AI is the future and want to invest in
learning**

Would it be valuable to you to attend a series of trainings to
confidently apply AI to local government work?

Q7

If CLG were to offer a 3-part series covering fundamental AI skills, it would likely cost between $400 and $500 per
person (for all 3 sessions combined). Is this a cost that you would find appropriate?

Yes

Q8   **Over 3 months (once every month)**

What timeframe would you want to complete a 3-part
series? (a series would mean multiple sessions)

Q9

If you were only attending a single 2.5-hour session, would you find a cost between $150 and $250 per person
appropriate?

Yes

Q10

What professional positions (e.g. City Manager, etc.) .) would your organization most likely send to these trainings?

I.T staff

Q1

What is your name and jurisdiction?

Jesse King, City of Sharonville

Q2

Have you or your team attended any AI webinars, training sessions, or courses in the past 3 years?

Yes

Q3

If you answered "No," what are the top topics you would most like to see addressed in your first local government specific AI training?

Respondent skipped this question

Q4

If you answered "Yes," what were the gaps in the training you received that still felt afterward? (Examples: understanding how to apply AI to my role, creating policy, navigating risk, choosing tools, leadership alignment, etc.)

The seminar was a high-level overview of AI, how it works, and some common use cases. There was little depth about practical use cases, policy creation, getting leadership/staff buy-in, risk control, etc. I would benefit from more actionable guidance, including resources like sample policies, case studies from municipalities that have already implemented AI tools, etc.

Q5

If you have not attended a training on AI, what topics would interest you enough that you would want to sign up?

Respondent skipped this question

Q6

Would it be valuable to you to attend a series of trainings to confidently apply AI to local government work?

Yes - I believe AI is the future and want to invest in learning

---

Q7

If CLG were to offer a 3-part series covering fundamental AI skills, it would likely cost between $400 and $500 per person (for all 3 sessions combined). Is this a cost that you would find appropriate?

Yes

Q8

What timeframe would you want to complete a 3-part series? (a series would mean multiple sessions)

Over 3 months (once every month)

Q9

If you were only attending a single 2.5-hour session, would you find a cost between $150 and $250 per person appropriate?

Yes

Q10

What professional positions (e.g. City Manager, etc.) .) would your organization most likely send to these trainings?

IT Director

Q1

What is your name and jurisdiction?

Steve Kelly, Miami Township

Q2   **No**

Have you or your team attended any AI webinars, training sessions, or courses in the past 3 years?

Q3

If you answered "No," what are the top topics you would most like to see addressed in your first local government specific AI training?

Public record requirements related to AI and effective use of this as a tool

---

Q4   **Respondent skipped this question**

If you answered "Yes," what were the gaps in the training you received that still felt afterward? (Examples: understanding how to apply AI to my role, creating policy, navigating risk, choosing tools, leadership alignment, etc.)

Q5

If you have not attended a training on AI, what topics would interest you enough that you would want to sign up?

Learning about ways that local governments have had success with implementing AI for various programs or processes

---

Q6   **Maybe - I'd start with one training first, then decide**

Would it be valuable to you to attend a series of trainings to confidently apply AI to local government work?

Q7

If CLG were to offer a 3-part series covering fundamental AI skills, it would likely cost between $400 and $500 per person (for all 3 sessions combined). Is this a cost that you would find appropriate?

Yes, but I would probably only send a few people

Q8   **Over 6 months (once every 2 months)**

What timeframe would you want to complete a 3-part series? (a series would mean multiple sessions)

Q9

If you were only attending a single 2.5-hour session, would you find a cost between $150 and $250 per person appropriate?

Yes

Q10

What professional positions (e.g. City Manager, etc.) .) would your organization most likely send to these trainings?

Administrative Assistants and Department Heads
